VALLATHARASU KATTURAJA

Full Stack Developer (Flutter | Laravel | React | Node.js)

Erukkumanippatti, Rappusal, Iluppur, Pudukkottai - 622102, India | 7094376344 | vallatharasubdu@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience designing, developing, and deploying scalable web and mobile applications using Flutter, Laravel, React, and Node.js. Delivered a cross-platform (Windows, iOS, Android, Web) POS/ERP system integrated with Ultimate POS via Connector APIs, supporting multiple business modules with offline-first data sync. Skilled across front-end, back-end, database design, and API integration, with hands-on experience delivering business software including POS, inventory, and booking systems. Strong track record of managing full project lifecycles independently, from architecture to deployment, across on-site, remote, and international (Qatar) engagements.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, jQuery, React, Bootstrap 5, Tailwind CSS, Flutter

Backend: PHP (Laravel), Node.js (Express.js)

Databases: MySQL, MongoDB, MSSQL, SQLite, Hive

Tools & Platforms: Git, GitHub (version control, branching, pull requests), Postman, FileZilla (FTP), XAMPP, cPanel

CI/CD: GitHub Actions (automated build, test, and deployment pipelines)

APIs & Integrations: REST APIs, Razorpay Payment Gateway

WORK EXPERIENCE

Full Stack Developer (Flutter & Laravel) — 2024 - Present

Softurn Technologies — Barwa Village, Qatar (On-site / Remote)

- Developed Softurn POS, a cross-platform Flutter POS application (Windows, Android, iOS, Web) integrated with the Ultimate POS (Laravel) ERP system via Connector APIs for products, sales, contacts, and data sync.
- Built configurable business modules for Restaurant, Retail, Laundry, and Multi-Extractor (oil pricing) operations, switching feature sets and workflows per business type.
- Implemented an offline-first architecture using local SQLite/MSSQL storage and Hive for settings, enabling uninterrupted POS operation during network outages with automatic sync on reconnect.
- Built core POS workflows including product grid, cart, payment processing, customer management, and cash register open/close.
- Implemented multi-format printing: customer thermal receipts, kitchen order tickets (KOT), dispatch slips, wristbands, A4/A5 documents, and product labels, with optional Arabic-language support.
- Developed reporting modules covering sales history, dashboards, aging reports, staff performance, and payment reports.
- Built and published Technobiz Report, a companion ERP reporting application, on the Google Play Store.
- Collaborated with an iOS developer to publish a companion app on the Apple App Store, including a self-order/self-service ordering system.
- Added supporting features including WhatsApp invoice sharing, expense tracking, and dual-screen customer display support.
- Set up a GitHub Actions CI/CD pipeline for automated build, test, and deployment of application updates, and managed source control workflows (branching, pull requests, code review) using Git and GitHub.

Full Stack Developer & Tutor — 2024

Kenstack Technologies — Trichy, India (On-site / Remote)

- Delivered part-time full stack development work while completing M.Tech coursework.
- Guided students in full stack development practices, covering both front-end and back-end fundamentals.
- Managed PHP projects remotely, including front-end and back-end implementation.
- Administered domains, hosting, and servers using cPanel and FileZilla.

Full Stack Developer (Internship with Stipend) — 2022 - 2023

Propel Soft — BUTP, Trichy, India

- Served as Lead UI Developer, driving UI design decisions and researching current design trends.
- Contributed to database architecture design for internal projects.
- Independently completed multiple PHP-based projects from requirements through delivery.

PROJECTS

Video Generator - Local Text-to-Video **2026**

- Built a local text-to-video app that streams LTX-2.3 on a 4 GB NVIDIA GPU using system memory.
- Added start and end frames so a clip animates between two pictures, with the source on GitHub.

Technologies: Python, PyTorch, ComfyUI, LTX-2.3

Softurn POS - Ultimate POS ERP System **2024 - Present**

- Cross-platform Flutter POS application (v9.0.2) connected to an Ultimate POS (Laravel) ERP backend via Connector APIs, deployed on Windows, Android, iOS, and Web.
- Supported multiple business verticals (restaurant, retail, laundry, and multi-extractor/oil pricing) through a single configurable app architecture.
- Designed offline-first data layer using SQLite/MSSQL and Hive, allowing full POS functionality without an internet connection and automatic sync when connectivity is restored.
- Delivered specialized printing outputs (thermal receipts, KOT, dispatch, wristbands, labels, A4/A5) and multi-language (Arabic) support.
- Published companion apps to the Google Play Store and Apple App Store, including a self-order/self-service ordering module.

Technologies: Flutter, Laravel Connector API, SQLite, MSSQL, Hive, REST API

E-Commerce Site Builder **B.Tech Final Year Project**

- Built a Flutter-based e-commerce front end delivering seamless, cross-platform user interactions.
- Integrated a PHP backend with a MySQL database for product and order management.

Technologies: Flutter, PHP, MySQL

Kshaktriya Symposium Event Website **College Project**

- Developed a student registration portal and event details website using jQuery, HTML, and CSS.
- Built a PHP and MySQL backend for data processing and hosted the site on a sponsored domain.

Technologies: jQuery, HTML, CSS, PHP, MySQL

Mark Management Application **Geography Department**

- Built a web application to manage student marks with advanced report export capabilities.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Royal Sports Arena

- Enhanced an existing HTML-based sports arena website (converted from WordPress) with backend functionality.
- Managed hosting setup and deployment as Backend Developer and Hosting Manager.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Hellogowda Blogsite

- Built a full blog platform with an SEO-optimized reading interface for end users.
- Developed an extensive admin panel with sub-admin management, post categorization, and subscription management.

Technologies: HTML, CSS, JavaScript, PHP, MySQL

Misty Mountains Booking

- Extended an existing landing page with a full room booking system.
- Integrated the Razorpay payment gateway for secure online transactions and managed deployment.

Technologies: HTML, CSS, Tailwind CSS, JavaScript, PHP, MySQL, Razorpay API

EDUCATION

M.Tech, Computer Science & Engineering **2019 - 2025**

Bharathidasan University

HSC (Class 12) **2018 - 2019**

Govt. HR. Sec. School, Rappusal - 68%

SSLC (Class 10) **2016 - 2017**

Govt. HR. Sec. School, Rappusal - 89%

CERTIFICATIONS & ACHIEVEMENTS

- Fundamentals of Web Development - E-Certificate, Pirple Platform
- 1st Place, Web Design Competition
- National Cadet Corps (NCC) 'B' Certificate - Grade B
- National Cadet Corps (NCC) 'C' Certificate - Grade C
